**SOFTWARE PLATFORMS**

v1.1

# History

Due to the Datalogic PSC Transition, the Datalogic product portfolio is based on different platforms, depending on their origin, technology and history:

## Formal PSC

- here called PSC Platform

## Formal Datalogic

- here called HHR Platform

## New Datalogic (after transition)

- here called Museo Plattform

# HHR-Platform

## Members:

- Heron D1x0
- Gryphon D/M1x0 & BT
- FireScan D1x1
- Dragon D/M1x1
- Touch Pro/Light
- StarModem
- PowerScan D/M8300
- QuickScan Mobile

## Options:

- Supported by Aladdin
- Advanced Formatting
- Advanced Formatting can be configured by manual or Aladdin

## Cable types:

- CAB-xxx

# MUSEO-Platform

## Members:

- Gryphon I GD41xx
- Gryphon I GM41xx
- Gryphon I GBT41xx
- Gryphon L GD43xx
- QuickScan I 21x0
- PowerScan 7100
- PowerScan 7100 BT

## Options:

- Supported by Aladdin
- Advanced Formatting can be configured by Aladdin (**not** with manual)
- Additional Advanced Formatting (more than with Aladdin) through script programming language U.L.E. (User Label Edit)

## Cable types:

- CAB-xxx (legacy & Industrial)

# MUSEO-Platform (2D)

## Members:

- Gryphon I GD44xx
- Gryphon I GM44xx
- Gryphon I GBT44xx

## Options:

- Supported by Aladdin
- Advanced Formatting can be configured by Aladdin (**not** with manual)
- Additional Advanced Formatting (more than with Aladdin) through script programming language U.L.E. (User Label Edit)

## Cable types:

- CAB-xxx (legacy & Industrial)

# LYNX-Platform (2D)

## Members:

- Gryphon D432
- Lynx D432
- Lynx BT432
- Gryphon D432 Plus
- PowerScan D8500

## Hybrid:

- PowerScan M8500  
(HHR/Lynx-Platform)

## Options:

- Supported by Aladdin
- Advanced Data Format via manual or Aladdin / VisualSetup

## Cable Types:

- CAB-xxx
  - Legacy for Lynx, Gryphon D432 Plus

# QuickScan L

This scanner is a low cost laser Scanner and an exception in terms of programming procedure. It is different to all other platforms.

**THE SCANNER IS **NOT** SUPPORTED BY ALADDIN!  
NO ADVANCED FORMATTING FEATURES!**

**Cable type:**

- CAB-xxx (legacy)

# MAGELLAN-Platform

(Hand Held Presentation)

## Members:

- **Magellan 800i**
- **Magellan 1100i**
- **Magellan 1400i**  
( 2D Imagers )

## Options:

- **Supported by OSP tool**  
(On Screen Programming)
- **Advanced Data Format**  
just with U.L.E. (User  
Label Edit / programming  
script).

## Cable Types:

- **8-xxxx-xx**
- **Special cable for firmware**  
upgrades

# MAGELLAN- Platform

## Members:

- Magellan 2200E
- Magellan 2300E
- Magellan 3200
- Magellan 3300
- Magellan 8300
- Magellan 8400
- Magellan 8500XT

## Options:

- Supported by OSP tool (On Screen Programming)
- Advanced Data Format just with U.L.E. (User Label Edit / programming script)

## Cable Types:

- 8-xxxx-xx
- Special cable for firmware upgrades

# PSC- Platform

## Members:

- QS6500
- QS6500 BT
- PowerScan 7000 2D

## Options:

- No programming tool available
- Advanced Data Format just with U.L.E.
- No homogenous architecture (different programming)

## Cable Types:

- 8-xxxx-xx
- Special cable for firmware upgrades

**Thank you!**
